

NE Joint Summer Meeting Tour – Monday, July 6, 2016

Meet in Sheraton Lobby – 11:45 am. Board van.

Lunch – Newick's Lobster House, Dover, NH

**Woodman Farm – UNH Horticulture Research Farm – John McLean, Manager**

Dr. Becky Sideman - greenhouse peppers in high tunnels, seedless table grapes in Northern climates, and brussel sprout production methods

Dr. Cathy Neal - establishing wildflower meadows for beauty and pollinators -it's not as easy as it sounds!

Dr. Thomas Davis – genetic analysis and manipulation of economically important plants, with current emphasis on strawberry and mint.

Dr. Iago Hale - specialty crop improvement through plant breeding and molecular genetics/genomics.

**Burley-Demeritt Farm - UNH Organic Dairy – Nicole Guindon, Farm Manager**

Matt Smith and Allison Leach, Ph.D. students – manure composting facility that creates energy independence for small operations.

Dr. Andre Brito – dairy cattle nutrition – particularly nitrogen utilization and enhanced pasture nutrition utilization using supplementation with energy sources.

Return to Sheraton by 4:30 pm.

If questions or need assistance – contact Dr. Lisa Townson – (603) 781-6808.
